Registrar's office: form for leave of absence + some sort of proof such as a copy of the employment contract (in case of internship). FlexNow registration not possible during leave of absence.
- Presentation in research colloquium + internship report (ca. 4000 words)
- Some examples of institutions and companies: AIESEC, Continental, Kronos AG, Audi, Internations, language schools, institutions promoting intercultural exchange... (some have led to part-time student jobs afterwards).

## 2. Platforms

### **SPUR** (**S**tudent **P**ortal at the **U**niversity of **R**egensburg)

SPUR is used for: enrollment, re-enrollment (certificate of matriculation for each semester), change of study program, course catalog and  
→ course registration.

There are two independent (course) registration platforms:

1. Electronic **course registration** on **SPUR** (also the course catalog)  
→ before the start of the lecture period
2. Electronic **exam registration** on **FlexNow** (examination management system)  
→ during the lecture period

## Course Registration on **SPUR**

- **Access to SPUR**

[www.ur.de](http://www.ur.de) → [SPUR](#)

**Alternatively:** [go.ur.de/deas](http://go.ur.de/deas) → [Organizing Your Studies](#) → [Course Registration](#) → [Course Registration on SPUR](#)

(Here you will find the dates for the current course registration periods at the DEAS)

- **Course registration period:**

Online registration for winter semester is over by now, for next summer semester: approximately end of January – February/March (exact dates tba)

- To register for or withdraw from a course, log into SPUR using your NDS account (abc12345).
- Individual study planner: courses you are registered for will automatically appear in your timetable. You can also add courses for which no course registration is required to your timetable (for example lectures).

## Exam registration on **FlexNow**

- **Examination management system**

FlexNow registration is required for **ALL** courses (seminars and lectures) in which you want to obtain ECTS credit points, i.e. all mandatory courses

- Important: Without having registered on FlexNow, you will not be awarded credit points or a grade (as if you had never taken that class), even if you initially registered on SPUR (SPUR and FlexNow are not connected).

- **Access to FlexNow**

[go.ur.de/deas](https://go.ur.de/deas) → [Organizing Your Studies](#) → [Course Registration](#) → [FlexNow](#)

- **Registration period for winter semester 2024/25:**

**Monday, October 28, 2024 - Sunday, January 26, 2025.**

During this period, you can register for and withdraw from exams.

- **Please note:**

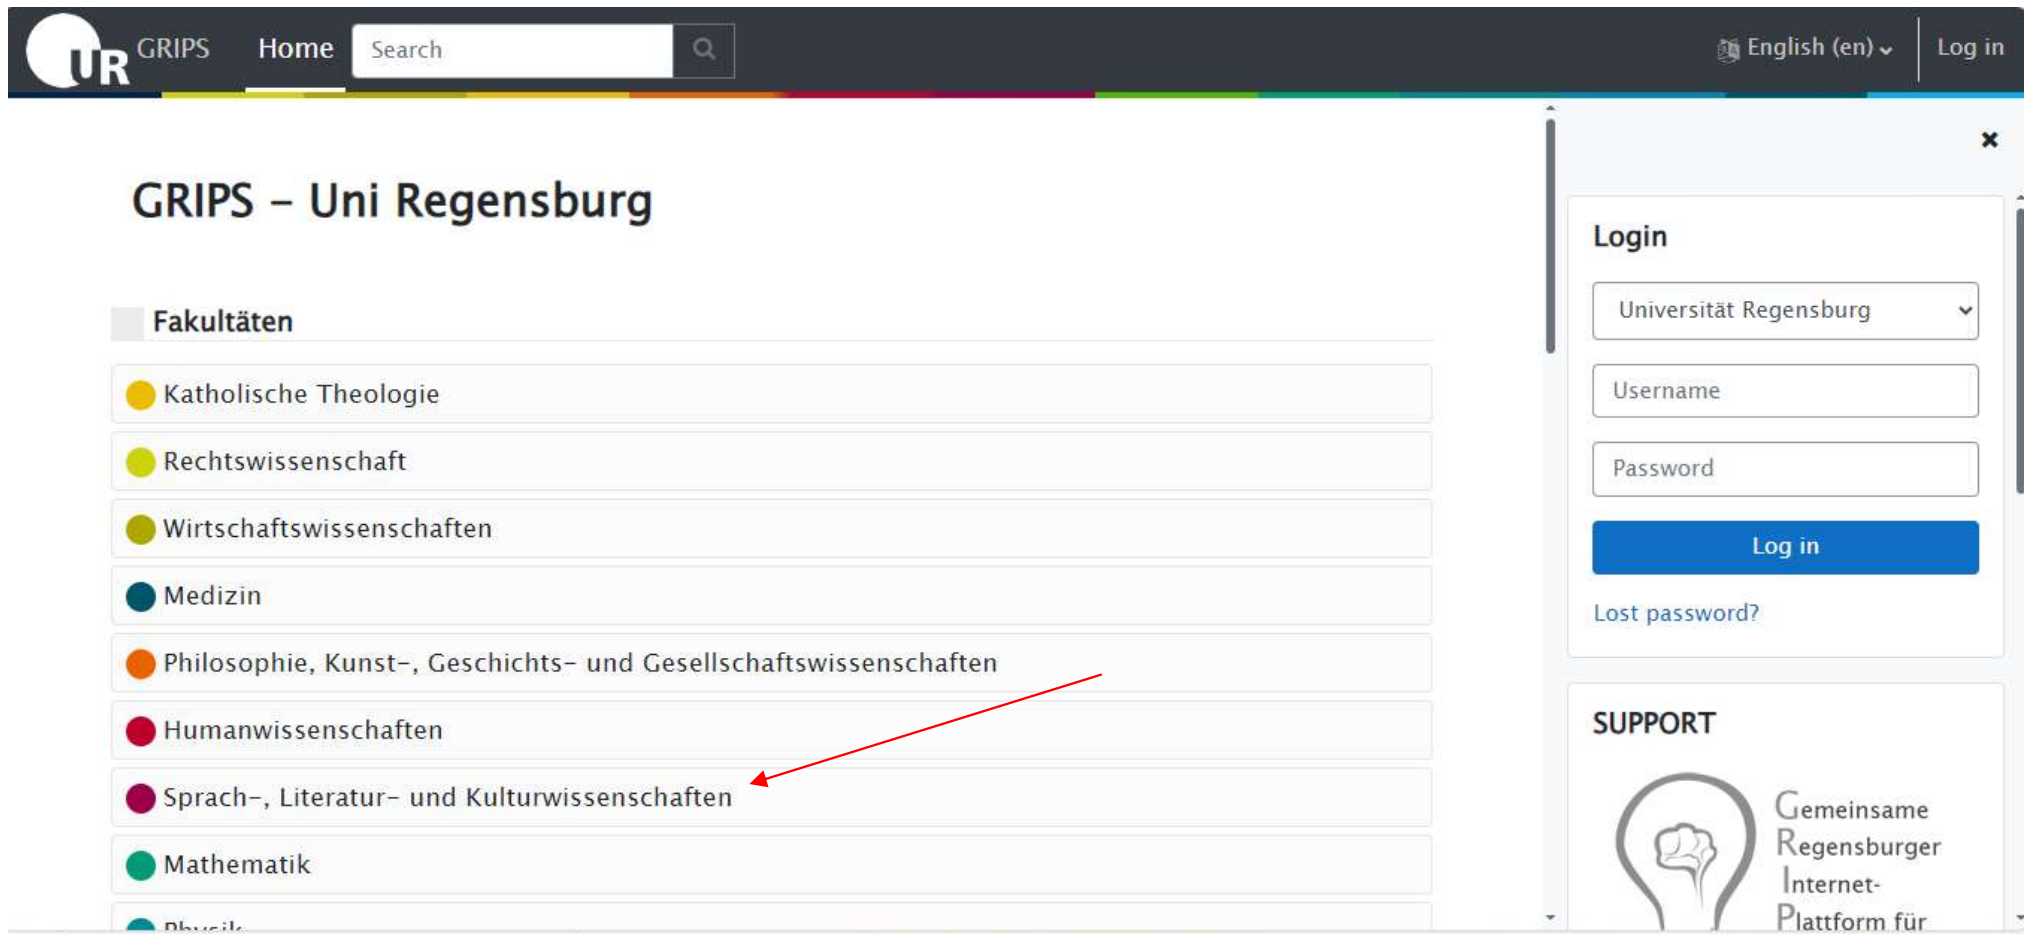

- It is not possible to get registered after the deadline!
- Registration periods vary between different departments (if applicable).
- Do not postpone your registration until the last week of registration, so that we can still help you if any problems or difficulties arise!

→ *It is best to register during the first few weeks of registration.*
