

The Chairperson of the Examination Board

Notice

on final module examinations in the winter semester 2024/2025 for the Master's programs

Chemistry (in accordance with the examination regulations of June 14, 2010),

COSOM (in accordance with the examination regulations of August 25, 2011),

Medicinal Chemistry (in accordance with the examination regulations of August 11, 2021),

Advanced Synthesis and Catalysis (in accordance with the examination regulations of June 8, 2016),

Business Chemistry (in accordance with the examination regulations of August 8, 2022).

**General examination period:
from February 3, 2025, to February 28, 2025**

Registration: from December 02, 2024, to January 06, 2025

Please note that a legally valid registration can only be made on **FlexNow** and **TEMPO** within the registration period shown.

- Step 1: Agree on the examination date with a professor of your choice in TEMPO ([the intranet of Faculty of Chemistry and Pharmacy](#)).
- Step 2: Register in FlexNow, giving the name of your examiner (your examiner will tell us the examination date, the time slot will be allocated by the examinations office).

The binding announcement of the date and time of the examination will take place latest two weeks before the general examination period on FlexNow.

Withdrawal from the examination is possible upon request **via the examination office** without giving reasons up to 5 working days before the start of the general examination period. After that, a withdrawal is only possible by submitting an application to the examination office and providing reasons ([withdrawal application](#)).

Should you miss the examination without being excused, it will count as taken and graded as "not sufficient" (nicht ausreichend).

(Prof. Dr. A. Pfitzner)
